

545002B000 54500-2B000 Car Parts Control Arm Suspension Wishbone

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54500-2B000
- Minimum Order Quantity: 20 PCS
- Price: USD12.85 ~ USD14.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 5000 pcs per month

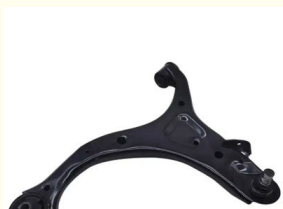

Product Specification

- Product Name: Suspension Control Arm
- Package: Poly Bag With Cartons, After Wooden Pallets
- Car Make: For Hyundai
- Size: Standard
- Warranty: 12 Months
- OEM: 54500-2B000
- Highlight: **Car Parts Control Arm Wishbone,
Car Parts Control Arm Suspension,
54500-2B000**

Product Description

54500-2B000 Suspension Control Arm For Hyundai Santa Fe 2005-2012 545002B000

Product Description:

A Control Arm: A Crucial Component of Vehicle Suspension

A control arm, or A-arm, is an important component found in the suspension system of a motor vehicle. Its primary function is to connect the vehicle's chassis to the suspension components, and regulate the motion of the car's wheels. Generally, both a front and rear suspension will contain control arms; however, their shape and design may vary.

This component, often referred to as a wishbone, plays a critical role in automobile safety, comfort, and performance. During a vehicle's acceleration or cornering, the action of the suspension system dictates how the car behaves. Control arms are integral to ensuring responsiveness, stability and contact between the tire and road, providing increased reliability for a smooth ride.

Due to their complexity, it is important to keep control arms in working order. Regular inspections should be carried out, and any signs of wear and tear replaced immediately. Doing so will reduce the likelihood of further damage that may require costly repairs.

Features:

Our control arm is designed with superior construction, crafted from high-quality materials such as forged or cast steel, aluminum, or composite materials. This ensures strength, durability, and resistance to wear and corrosion, and it is built to withstand the demands of daily driving and various road conditions.

The control arm plays a crucial role in linking the suspension components, such as the wheel hub assembly and steering knuckle, to the vehicle's chassis, providing the necessary structural support and flexibility to control the motion of the wheels, maintaining proper alignment and enhancing handling and stability.

Furthermore, it helps maintain precise wheel alignment, ensuring even tire wear, optimal handling, and improved vehicle stability. It allows for controlled vertical movement of the wheels, providing enhanced traction and responsiveness during acceleration, braking, and cornering.

Our control is designed for straightforward installation, making it suitable for both professional mechanics. It is a direct fit replacement for your vehicle's original control arm, ensuring compatibility and a hassle-free installation process.

We prioritize quality and performance, and our control arm undergoes rigorous testing and quality control measures to meet or exceed industry standards. Thus, you can be sure that the product you're getting is reliable and durable.

Support and Services:

Suspension Control Arm technical support and services include:

On-site installation and maintenance

Troubleshooting and repair of broken components

Inspection of key components

Replacement of worn out parts

24/7 customer support

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
