Steel Suspension Control Arm Part 54500-2W000 Suspension Linkage Assembly

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 54500-2W000
- Minimum Order Quantity: 20 PCS
- Price: USD12.85 ~ USD14.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 5000 pcs per month

Product Specification

- Product Name: Suspension Control Arm
- Car Make: For Hyundai
- Warranty: 12 Months
- Size: Standard
- Package: Poly Bag With Cartons, After Wooden Pallets
- OEM: 54500-2W000
- Highlight: **Steel Suspension Control Arm,
Suspension Control Arm Part, 54500-2W000**

Product Description

54500-2W000 Suspension Control Arm For Hyundai Santa Fe 2012 2013 54500 2W000

Product Description:

A **control arm**, also referred to as an **A-arm** or **wishbone**, is an essential component of a vehicle's suspension system. This part plays an important role in connecting the suspension parts to the vehicle's chassis and influencing the motion of the wheels. In most vehicles, the control arm is seen in both the front and rear suspension systems, with the design and arrangement of the part varying across different models.

Features:

Our **control arm** is made with the highest quality materials, such as forged or cast steel, aluminum, or composite materials. This ensures that it is strong, durable, and resistant to wear and corrosion, and can withstand the demands of everyday driving and different road conditions.

The control arm is an essential part of linking the components of the suspension system, such as the wheel hub assembly and the steering knuckle, to the vehicle's chassis. It provides a robust structure and flexibility, allowing for the wheels to move properly and improving handling and stability.

Our control arm also assists in maintaining proper wheel alignment, ensuring uniform tire wear, optimal handling and improved vehicle stability. It enables precise vertical movement of the wheels, thus improving traction and responsiveness when accelerating, braking, or cornering.

Installing our control arm has been made very simple, and is ideal for both professional mechanics and ordinary vehicle owners. It is an exact interchangeable part for the car's original control arm, guaranteeing compatibility and a seamless installation process. We assure that the control arm is built with the highest standards, and has undergone multiple tests and quality checks before it reaches your hands. It is supplied by reliable sources that prioritise quality and performance, offering you an item that is trustworthy and long lasting.

Technical Parameters:

Product Name	Technical Parameters
Suspension Control Arm	Warranty: 12 Months Car make: For Hyundai Size: Standard Package: Poly Bag With Cartons, After Wooden Pallets Suspension Strut Arm, Suspension Linkage Assembly, Suspension Control Link, Car Suspension Control

Support and Services:
