90451-1HM0A 90450-1HM0A Automobile Tailgate Gas Spring Support Rod For Nissan

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 90451-1HM0A 90450-1HM0A
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Type: Automobile Gas Spring
- Warranty: 12 Months
- Country Of Origin: China
- Name: Automobile Spare Parts
- Size: Standard

Product Description

Product Description:

The Automobile Gas Spring is a specialized component that has been designed for use in automobiles. This unique component has been created with the specific purpose of providing controlled support and lift assistance to various parts of a vehicle.

As a specialized component, the Automobile Gas Spring is engineered to provide superior performance in automotive applications, ensuring that it provides adequate support and lift assistance to the specified parts of your vehicle. Using this component in your car ensures that you are making use of a high-quality part that can be trusted to deliver reliable and consistent results.

Whether you are looking to repair or modify your vehicle, using an Automobile Gas Spring can help you achieve your desired outcome. This component is specifically designed to be compatible with automotive applications, guaranteeing that it will integrate seamlessly with your car.

In summary, the Automobile Gas Spring is a highly specialized component that is essential for providing controlled support and lift assistance to various parts of a car. Its design and engineering ensure that it provides superior performance, making it a highly reliable option for automotive applications.

Features:

At our company, we provide a Gas Spring that is designed to offer reliable support and lift assistance for various automotive applications. This gas spring can be used to hold open heavy components like hoods, trunks, and tailgates, making access to a vehicle's storage areas easier and safer. Our Gas Spring features controlled force to ensure effortless lifting and holding of objects in the desired position.

Our Gas Spring is equipped with adjustable force and stroke options to meet specific automotive requirements. By adjusting the gas pressure or volume within the cylinder, the force exerted by the spring can be customized to suit different applications. This flexibility allows for precise support and lift assistance tailored to the specific weight and movement characteristics of the component.

Our Gas Spring is designed to provide effective damping and motion control, reducing vibrations, noise, and impact forces in automotive applications. It absorbs and dissipates energy generated by moving parts to ensure smooth and controlled movement. This feature is especially beneficial in vehicle suspension systems, where it contributes to enhanced ride comfort and stability.

Safety is a key consideration in our Gas Spring design. It includes built-in features to prevent uncontrolled or sudden movements, such as valves that regulate the speed of extension and retraction. This ensures safe and controlled operation, minimizing the risk of accidents or injuries.

Our Gas Spring is built with high-quality materials, including robust steel or stainless steel components, to ensure durability and long-lasting performance. It's designed to withstand the rigors of automotive environments, including exposure to vibrations, temperature variations, and moisture, without compromising its functionality.

Our Gas Spring is engineered for easy installation in automotive applications. It's designed to fit specific mounting points and interfaces, allowing for a straightforward and hassle-free installation process. This saves time and effort during assembly or replacement.

Technical Parameters:

Product Name:	Automobile Spare Parts
Size:	Standard
Type:	Automobile Gas Spring
Country of Origin:	China
Warranty:	12 Months

Applications:

Upgrade Your Vehicle with Our Premium Automobile Gas Spring

If you're looking to enhance the functionality of your car and improve your driving experience, consider upgrading to our premium Automobile Gas Spring. Our product offers reliable support, lift assistance, and motion control in automotive applications, making for smooth and easy operation.

Our Gas Spring is designed for durability and performance, delivering consistent and controlled force to ensure safety and convenience. Its responsive design and exceptional functionality will help you to feel confident behind the wheel, no matter where you're headed.

With our Automobile Gas Spring, you'll enjoy a comfortable and smooth ride every time. Trust in our product to deliver the support and lift assistance you need for a reliable and rewarding driving experience.

Support and Services:

Our team of product technical support specialists is available to assist you with any questions or issues you may encounter with our automobile spare parts. We offer a range of services to ensure that your product performs at its best, including:

Installation support and guidance

Troubleshooting and diagnostics

Product maintenance and repair

Warranty support and claims processing

Parts replacement and ordering

Our goal is to provide you with the best possible support and service to ensure your satisfaction with our automobile spare parts. Please don't hesitate to contact us for assistance.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

- A large of stock

- Professional export company

- Accept small order

- We can design anything well according to customers' requirment
